

Illinois Department of Revenue 2017 Form IL-1040 Instructions

What's New for 2017?

Protecting Illinois Taxpayers

Our enhanced efforts to protect Illinois taxpayers from identity theft and tax fraud have proven to be highly successful. We will continue to combat the criminals attempting to steal your identity to file fraudulent tax returns while making every effort to get your tax refund to you as quickly as possible.

Please remember, filing your return electronically and requesting direct deposit is still the fastest way to receive your refund. You can file for [free](#) using MyTax Illinois, our online account management program for taxpayers. For more information, go to mytax.illinois.gov or visit our website.

Form IL-1040 Due Date

The due date for filing your 2017 Form IL-1040 and paying any tax you owe is extended to April 17, 2018. We are following the Internal Revenue Service (IRS) in extending the due date because of the Emancipation Day holiday being observed on April 16 in the District of Columbia.

Income Tax Rate

Public Act 100-0022 increased the income tax rate during the 2017 tax year. The blended income tax rate for most taxpayers is 4.3549 percent (.043549). If you choose to calculate your tax using the specific accounting method, complete Schedule SA (IL-1040) and attach to your return. See the Schedule SA Instructions for details.

Exemption Allowance

For tax years beginning on or after January 1, 2017, the standard exemption allowance may not be claimed in Step 4 if a taxpayer's federal adjusted gross income (AGI) on Line 1 exceeds \$500,000 for returns with a federal filing status of married filing jointly, or \$250,000 for all other returns.

Earned Income Credit

The Illinois Earned Income Credit (EIC) is now reported on Schedule IL-EIC. For tax years beginning on or after January 1, 2017, and before January 1, 2018, the Illinois EIC percentage has increased from 10 percent to 14 percent of the federal EIC. If you claimed a federal EIC, you may now claim 14 percent of this credit on your Illinois return.

K-12 Education Expense Credit

For tax years ending on or after December 31, 2017, the maximum amount of the K-12 Education Expense Credit has been increased to \$750 per family. The K-12 Education Expense Credit is not allowed if a taxpayer's federal AGI exceeds \$500,000 for returns with a federal filing status of married filing jointly, or \$250,000 for all other returns.

Property Tax Credit

For tax years beginning on or after January 1, 2017, the Illinois Property Tax Credit is not allowed if a taxpayer's federal AGI exceeds \$500,000 for returns with a federal filing status of married filing jointly, or \$250,000 for all other returns.

Instructional Materials and Supplies Credit

For tax years beginning on and after January 1, 2017, eligible educators may claim an Instructional Materials and Supplies Credit for qualified expenses paid during the tax year. See Schedule 1299-C, Income Tax Subtractions and Credits (for individuals), and the Schedule 1299-C Instructions for details.

Natural Disaster Credit

Public Act 100-0555 provides for an income tax credit for taxpayers who received damage to qualified real property located in an Illinois state-declared disaster area as a result of flooding in 2017. See Informational Bulletin 2018-17 and the Schedule 1299-C Instructions for details.

Voluntary Contributions

Public Act 100-0329 created two new income tax charitable funds for tax years ending on or after December 31, 2017. See Schedule G, Voluntary Charitable Donations, and the Schedule G Instructions for a description of each fund and how to donate.

Schedule M

Schedule M, Other Additions and Subtractions for Individuals, includes a new addition for income attributable to domestic production activities.

Schedule 1299-C

- The following credits have expired and have been removed from the 2017 Schedule 1299-C: the River Edge Redevelopment Zone Investment Credit, the River Edge Redevelopment Zone Remediation Credit, and the Veterans Job Credit. You may not claim these credits on the 2017 Schedule 1299-C.
- The River Edge Historic Preservation Credit has been extended to tax years ending prior to January 1, 2022. Only credits earned before January 1, 2018 will qualify for the five-year credit carry forward. Credit claimed on a return filed for a taxable year ending on or after December 31, 2018 cannot be carried forward.
- The Angel Investment Credit has been extended to tax years ending on or before December 31, 2021.
- The New Markets Credit has been extended to tax years ending on or before June 30, 2021.
- The Live Theater Production Tax Credit has been extended to tax years beginning prior to January 1, 2022.
- The Economic Development for a Growing Economy (EDGE) Tax Credit has been extended to tax years ending on or before June 30, 2022.
- The Hospital Credit has expired for tax years beginning on or after June 14, 2017. If your tax year begins on or after June 14, 2017, you cannot claim this credit on Schedule 1299-C. You may still claim any distributive share of this credit passed through to you on Schedule K-1-P by reporting it on Schedule 1299-C, Line 50.
- An "Other Credits which may be carried forward for five years" line has been added to Step 3, Section B, of the 2017 Schedule 1299-C. This line can be used to claim Illinois Income Tax credits which are on the Schedule 1299-C, but for which no specific line has been provided on the schedule. See the Specific Instructions in the Schedule 1299-C Instructions for details.

Paid Preparer Information

For taxable years beginning on or after January 1, 2017, any tax preparer who is paid to prepare or assist in preparing an Illinois Individual Income Tax return must sign and date the return, provide a phone number, and enter their Preparer Tax Identification Number (PTIN) issued by the IRS. Step 14 on Form IL-1040 has been revised to enable paid preparers to provide this information.

Who must file an Illinois tax return?

If you were

- **an Illinois resident**, you must file Form IL-1040 if
 - you were required to file a federal income tax return, or
 - you were not required to file a federal income tax return, but your Illinois base income from Line 9 is greater than your Illinois exemption allowance.
- **an Illinois resident who worked in Iowa, Kentucky, Michigan, or Wisconsin**, you must file Form IL-1040 and include as Illinois income any compensation you received from an employer in these states. Compensation paid to Illinois residents working in these states is taxed by Illinois. Based on reciprocal agreements between Illinois and these states, these states do not tax the compensation of Illinois residents.

If your employer in any of these states withheld that state's tax from your compensation, you may file the correct form with that state to claim a refund. You may not use tax withheld by an employer for these states as a credit on your Illinois return.

- **a retired Illinois resident** who filed a federal return, you must file Form IL-1040. However, certain types of retirement income (*e.g.*, pension, Social Security, railroad retirement, governmental deferred compensation) may be subtracted from your Illinois income. For more information, see the instructions for Line 5 and Publication 120, Retirement Income.
- **a part-year resident**, you must file Form IL-1040 and Schedule NR, Nonresident and Part-Year Resident Computation of Illinois Tax, if
 - you earned income from any source while you were a resident,
 - you earned income from Illinois sources while you were not a resident, or
 - you want a refund of any Illinois Income Tax withheld.
- **a nonresident**, you must file Form IL-1040 and Schedule NR if
 - you earned enough taxable income from Illinois sources to have a tax liability (*i.e.*, your Illinois base income from Schedule NR, Step 5, Line 46, is greater than your Illinois exemption allowance on Schedule NR, Step 5, Line 50), or
 - you want a refund of any Illinois Income Tax withheld in error. You must attach a letter of explanation from your employer.

Note → If you are a nonresident and your only income in Illinois is from one or more partnerships, S corporations, or trusts that withheld enough Illinois Income Tax to pay your liability, you are not required to file a Form IL-1040.

- **an Iowa, Kentucky, Michigan, or Wisconsin resident who worked in Illinois**, you must file Form IL-1040 and Schedule NR if
 - you received income in Illinois from sources other than wages, salaries, tips, and commissions, or
 - you want a refund of any Illinois Income Tax withheld.

If you received wages, salaries, tips, and commissions from Illinois employers, you are not required to pay Illinois Income Tax on this income. This is based on reciprocal agreements between Illinois and these states.

The reciprocal agreements do not apply to any other income you might have received, such as Illinois lottery winnings and Illinois unemployment income.

- **an Illinois resident who was claimed as a dependent on your parents' or another person's return**, you must file Form IL-1040 if
 - your Illinois base income from Line 9 is greater than \$2,175, or
 - you want a refund of Illinois Income Tax withheld from your pay.

Note → If your parent reported your interest and dividend income through federal Form 8814, Parents' Election to Report Child's Interest and Dividends, do not count that income in determining if you must file your own Form IL-1040.

- **the surviving spouse or representative of a deceased taxpayer** who was required to file in Illinois, you must file any return required of that taxpayer.
- **a student**, you are not exempt from tax nor are there special residency provisions for you. However, income, such as certain scholarships or fellowships, that is not taxable under federal income tax law, is also not taxed by Illinois.
- **a nonresident alien**, you must file Form IL-1040 if your income is taxed under federal income tax law. You must attach a copy of your federal Form 1040NR, U.S. Nonresident Alien Income Tax Return, or federal Form 1040NR-EZ, U.S. Income Tax Return for Certain Nonresident Aliens With No Dependents.

General Information

Even if you are not required to file Form IL-1040, you must file to get a refund of

- Illinois Income Tax withheld from your pay,
 - estimated tax payments you made, or
 - withholding on income passed through to you by a partnership, S Corporation, or trust.
-

Who is an Illinois resident?

You are an Illinois resident if you were domiciled in Illinois for the entire tax year. Your domicile is the place where you reside and the place where you intend to return after temporary absences. Temporary absences may include duty in the U.S. Armed Forces, residence in a foreign country, out-of-state residence as a student, or out-of-state residence during the winter or summer.

Note → If you filed a joint federal return and one spouse is an Illinois resident while the other spouse is a nonresident or a part-year resident, you may file separate Illinois returns. If you file a joint Illinois return, you will both be taxed as residents.

What is Illinois income?

Your Illinois income includes the adjusted gross income (AGI) amount figured on your federal return, plus any additional income that must be added to your AGI. Some of your income may be subtracted when figuring your Illinois base income. For more information, see the Step-by-Step Instructions.

You should follow the federal law concerning passive activity income and losses. You are not allowed to refigure your federal passive activity losses.

Also, federal law will govern the taxation of income from community property sources in the case of spouses who file joint federal returns and who file separate Illinois returns.

How may I file?

File your individual income tax return electronically by using

- MyTax Illinois, available on our website for **free**,
- a tax professional, or
- tax preparation software.

Almost all taxpayers can file electronically. Visit our website at **tax.illinois.gov** or see your tax professional. If you do not wish to file electronically, you may use the paper Form IL-1040.

When must I file?

Your Illinois filing period is the same as your federal filing period. We will assume that you are filing your Form IL-1040 for calendar year 2017 unless you indicate a different filing period in the space provided at the top of the return. The due date for calendar year filers is April 17, 2018.

We grant an **automatic six-month extension** of time to file your return. If you receive a federal extension of more than six months, you are automatically allowed that extension for Illinois. These extensions **do not** grant you an extension of time to pay any tax you owe. If you determine that you will owe tax, you must use Form IL-505-1, Automatic Extension Payment for Individuals, to pay any tax you owe to avoid penalty and interest on tax not paid by April 17, 2018.

Should I round?

You must round cents to whole dollars on Form IL-1040 and most schedules, as directed. To round you must

- drop amounts under 50 cents and
- increase amounts of 50 to 99 cents to the next dollar.

For example, \$1.49 becomes \$1 and \$2.50 becomes \$3.

If you have to add two or more amounts to figure the amount to enter on a line, include cents when adding the amounts and round only the total.

Will I owe penalties and interest?

You will owe

- a **late-filing penalty** if you do not file a return that we can process by the extended due date.
- a **late-payment penalty** for tax not paid by the original due date of the return.
- a **late-payment penalty** for underpayment of estimated tax if you were required to make estimated tax payments and failed to pay the required amount by the payment due dates.
- a **bad check penalty** if your remittance is not honored by your financial institution.
- a **cost of collection fee** if you do not pay the amount you owe within 30 days of the date printed on any IDOR-2-BILL, Final Notice of Tax Due for Form IL-1040, Individual Income Tax Return, you receive.

- **a frivolous return penalty** if you file a return that does not contain information necessary to figure the correct tax or shows a substantially incorrect tax, because you are taking a frivolous position or are trying to delay or interfere with collection of the tax.
- **interest** on unpaid tax from the day after the original due date of your return through the date you pay the tax.

We will bill you for penalties and interest. For more information about penalties and interest, see Publication 103, Penalties and Interest for Illinois Taxes.

What if I cannot pay?

If you cannot pay the tax you owe but you can complete your return on time, file your return by the due date without the payment. This will prevent a late-filing penalty from being assessed. You will, however, owe a late-payment penalty **and interest** on any tax you owe after the original due date, even if you have an extension of time to file.

You have the option to pay the amount you owe electronically by using our website or by credit card. See the instructions for Line 40.

When must I file an amended return?

Do not file another Form IL-1040 to make changes to a previously filed Form IL-1040. You must file Form IL-1040-X, Amended Individual Income Tax Return, if

- you discover that you made an error on your Illinois return after it was filed, or
- your federal return has been adjusted either by the Internal Revenue Service (IRS) or on a federal Form 1040X, Amended U.S. Individual Income Tax Return, you filed; the change affects your Illinois income, additions, subtractions, exemptions, or credits; and the change is final.

Note → If the federal change results in a refund, **do not** file Form IL-1040-X until you receive notification that your change has been accepted by the IRS.

For more information, see Form IL-1040-X and Instructions.

What if I have household employees?

You may use Form IL-1040 to pay your household employees' Illinois withholding. For more details on how to pay withholding for your employees, see the instructions for Line 22.

What if I change my address?

If you change your address after you file, visit our website or call us to tell us your new address and the date you moved.

What if I am in a civil union?

If you are in a civil union, you must file your Illinois return using the same filing status as on your federal return.

What if I am an injured spouse?

If you are married and you filed a joint federal return with your spouse and you are an injured spouse (*e.g.*, your spouse owes a liability, for which you are not responsible, to a government agency), you may elect to file separate Illinois returns using the "married filing separately" filing status. You may make this election up until the extended due date of your return, and once the election is made, it is irrevocable for the tax year.

Note → If you file a joint Illinois return, we may take the entire refund to pay your spouse's liability.

What if I participated in a potentially abusive tax avoidance transaction?

If you participated in a reportable transaction, including a "listed transaction," during this tax year and were required to disclose that to the IRS, you are also required to disclose that information to Illinois.

You must send us two copies of the form you used to disclose the transaction to the IRS. You must

- attach one copy to your tax return, **and**
- mail a second copy to the Illinois Department of Revenue, P.O. Box 19029, Springfield, Illinois 62794-9029.

Note → Employee benefit plans and other subtractions allowed on Form IL-1040, Lines 5 through 7, are not reportable transactions. For more information, contact the IRS or your tax professional.

Step 1 Personal Information

Line A

Social Security number

Enter your Social Security number (SSN) and your spouse's SSN, even if you are married filing separate returns.

Note → If you do not qualify for a SSN and were issued an Individual Taxpayer Identification Number (ITIN) by the IRS, enter your ITIN.

Line B

Name and address

Print your full name and address. If you are married and filing a joint return, print both names as they appear on your federal return. If you are married and filing separate returns, print your full name and your spouse's full name.

Tip

Filing a decedent's return

When you are filing a joint return as a surviving spouse

- print your name and your spouse's name on the appropriate lines.
- write "deceased" and the date of death above your spouse's name.
- sign your name in the area provided for your signature, and write "filing as surviving spouse" in place of the decedent's signature.

If you, as the surviving spouse, are due a refund, the refund will be issued directly to you. You are not required to complete Form IL-1310, Statement of Person Claiming Refund Due a Deceased Taxpayer.

When you are filing a return on behalf of a single deceased taxpayer

- print the name of the taxpayer on the appropriate line.
- write "deceased" and the date of death above the decedent's name.
- write "in care of," and the executor's name and address.

A personal representative, such as an executor or administrator, must sign and date the return. The representative's title and telephone number must be provided.

Attach

If you are filing a return on behalf of a single deceased taxpayer and a refund is due, attach Form IL-1310, Statement of Person Claiming Refund Due a Deceased Taxpayer.

Tip

Foreign addresses

Enter your

- street address on the "Mailing address" line.
- apartment number, if applicable.
- city, province or state, and postal code on the "City, State, ZIP" lines in that order. Follow the country's practice for entering the postal code.
- country name on the "Foreign Nation" line. Do not abbreviate the country name.

Line C

Filing status

In general, you should use the same filing status as on your federal return. However,

- if you file a joint federal return and you are an injured spouse (your spouse owes a liability, for which you are not responsible, to a government agency), you should file separate Illinois returns using the "married filing separately" filing status. Do not recalculate any items on your federal return. Instead, you must divide each item of income and deduction shown on your joint federal return between your separate Illinois returns following the Allocation Worksheet on Page 16.

You may choose to file separately as an injured spouse only until the extended due date of the return, and once you choose a filing status, the decision is irrevocable for the tax year.

Note → If you choose to file a joint Illinois return, we may take the entire refund to pay your spouse's liability.

- if you file a joint federal return and one spouse is a full-year Illinois resident while the other is a part-year resident or a nonresident (*e.g.*, military personnel), you may choose to file "married filing separately." Do not recalculate any items on your federal return. Instead, you must divide each item of income and deduction shown on your joint federal return between your separate Illinois returns following the Allocation Worksheet on Page 16.

If you choose to file a joint Illinois return, you must treat both your spouse and yourself as residents. This election is irrevocable for the tax year. You may be allowed a credit for income tax paid to another state on Schedule CR, Credit for Tax Paid to Other States. For more information, see the Schedule CR Instructions.

Note → If you are in a civil union, you must file your Illinois return using the same filing status as on your federal return.

Step 2

Income

Line 1

Adjusted gross income

Enter the adjusted gross income from your federal return. If you are not required to file a federal income tax return, use a federal Form 1040 as a worksheet to determine your adjusted gross income.

Net operating loss (NOL)

If you have a federal NOL this year, you may enter a negative amount on Line 1. However, you must reduce the amount you enter on your 2017 Form IL-1040, Line 1, by any NOL that you carry back to prior years.

If you deducted an NOL carryforward on your federal return for this year and some of that NOL remains available to carry forward to next year, the amount on Line 1 should be your federal adjusted gross income calculated without deducting the NOL carryforward, minus the amount of "Modified Taxable Income" on Line 9 of the federal Worksheet for NOL Carryover found in Table 1 of IRS Publication 536, Net Operating Losses (NOLs) for Individuals, Estates, and Trusts.

Line 2

Federally tax-exempt income

Enter the amount of federally tax-exempt interest and dividend income reported on federal Form 1040, U.S. Individual Income Tax Return, or federal Form 1040A, U.S. Individual Income Tax Return, Line 8b, or to the left of federal Form 1040EZ, Income Tax Return for Single and Joint Filers With No Dependents, Line 2.

Note → Your distributive share of federally tax-exempt interest and dividend income received from a partnership, S corporation, trust, or estate is added back on Schedule M, Line 2.

Line 3

Other additions

Complete Schedule M if you have any of the following items:

- your child's federally tax-exempt interest and dividend income as reported on federal Form 8814
- a distributive share of additions you received from a partnership, S corporation, trust, or estate
- Lloyd's plan of operation loss, if reported on your behalf on Form IL-1065, and included in your adjusted gross income
- earnings distributed from IRC Section 529 college savings and tuition programs if these earnings are not included in your adjusted gross income, Line 1
- an addition amount calculated on Form IL-4562, Special Depreciation
- business expense recapture (nonresidents only)
- recapture of deductions for contributions to Illinois college savings plans transferred to an out-of-state plan
- credit received on Schedule 1299-C for student-assistance contributions made as an employer on behalf of your employees
- deductions claimed in prior years for college savings plan contributions if you made a nonqualified withdrawal this tax year
- income attributable to domestic production activities
- any other amounts that you are required to add to your federal adjusted gross income

For more information, see the Schedule M Instructions.

Schedule M and any required supporting documents.

Step 3

Base Income

Line 5

Social Security benefits and certain retirement plans

Enter the amount of federally taxed Social Security and retirement income included in your adjusted gross income on Form IL-1040, Line 1 that you received from

- **qualified employee benefit plans** (including railroad retirement and 401(K) plans) reported on federal Form 1040, Line 16b, or Form 1040A, Line 12b.
- **Individual Retirement Accounts** or **self-employed retirement plans** reported on federal Form 1040, Line 15b, or Form 1040A, Line 11b.
- **Social Security and railroad retirement benefits** reported on federal Form 1040, Line 20b, or Form 1040A, Line 14b.
- **government retirement and government disability plans and group term life insurance premiums paid by a qualified retirement plan** reported as wages on your federal Form 1040 or 1040A, Line 7.
- **state or local government deferred compensation plans** reported on federal Form 1040, Line 7 or 16b, or Form 1040A, Line 7 or 12b.
- **certain capital gains on employer securities** reported on federal Form 1040, Line 13.
- **certain retirement payments made directly to retired partners** reported on federal Form 1040, Line 17.

Note → Your beneficiary share of payments from certain retirement plans and retirement payments to retired partners reported on tax.illinois.gov

Schedule K-1-T, Beneficiary's Share of Income and Deductions, should not be included on Line 5. For more information, see the Schedule M Instructions. See Publication 120 for detailed information about what retirement income you may subtract.

Federal Form 1040 or 1040A, Page 1, and any W-2 and 1099 forms. If your retirement income is not reported on your federal Form 1040, Lines 15b, 16b, and 20b, or Form 1040A, Lines 11b, 12b, and 14b, or shown on your W-2 and 1099 forms, see Publication 120 for a list of any additional required attachments.

Line 6

Illinois Income Tax overpayment

Enter the total amount of any **Illinois** Income Tax overpayment (including any amount that was credited to another tax liability) reported as income on your 2017 federal Form 1040, Line 10. Do not include other states' refunds on this line.

If you filed a federal Form 1040A or Form 1040EZ, you may not take this subtraction.

Line 7

Other subtractions

You may be entitled to subtract other items from your income. See the instructions for Schedule M to see if you are eligible for other subtractions.

Schedule M and any required supporting documents.

Line 9

Base income

This line may not be less than zero. If the result is a negative number, enter "zero."

Lines 10-14

Step 4 Exemptions

Note → If your federal filing status is married filing jointly and your federal AGI on Line 1 is greater than \$500,000, you are not entitled to an exemption allowance on Line 10. Enter “zero” on Line 10.

Note → If your federal filing status is single or head of household, married filing separately, or widowed and your federal AGI on Line 1 is greater than \$250,000, you are not entitled to an exemption allowance on Line 10. Enter “zero” on Line 10.

Note → **Fiscal filers with a tax year beginning on and after June 1, 2017** - The Illinois exemption allowance has decreased to \$2,000 for tax periods beginning on and after June 1, 2017.

Line 10

Illinois exemption allowance

Line 10a

If you filed

- federal Form 1040 or 1040A, your number of exemptions is found in box 6d of your federal return.
- federal Form 1040EZ, your number of exemptions is
 - **0** - if you are single and you checked the “You” box on Line 5 of your federal return, or if you are married filing jointly and you checked both the “You” and “Spouse” boxes on Line 5 of your federal return.
 - **1** - if you are single and did not check the “You” box on Line 5 of your federal return, or if you are married filing jointly and you checked only one box (either “You” or “Spouse”) on Line 5 of your federal return.
 - **2** - if you are married filing jointly and did not check either box on Line 5 of your federal return.
- federal Form 1040NR, your number of exemptions is found in box 7d of your federal return.
- federal Form 1040NR-EZ, your number of exemptions is **1**.

Note → If you did not file a federal return, use the federal Form 1040 as a worksheet, and enter the number of exemptions you would have claimed if you had filed one.

Note → If you are a fiscal filer with a tax year beginning on and after June 1, 2017, multiply the number of exemptions from your federal return by \$2,000, and enter the result on Line 10a.

Line 10b

If someone else can claim you as a dependent and your Illinois base income (Form IL-1040, Line 9, or Schedule NR, Line 46) is

- \$2,175 or less, your number of exemptions is **1**.
- greater than \$2,175, your number of exemptions is **0**

Note → If your Illinois base income is \$4,350 or less, you are married filing jointly, and both of you can be claimed as dependents on someone else’s return, your number of exemptions is **2**.

Note → If you are a fiscal filer with a tax year beginning on and after June 1, 2017, and someone else can claim you as a dependent and your Illinois base income (Form IL-1040, Line 9, or Schedule NR, Line 46) is

See Publication 121, Illinois Income Tax Withholding for Household Employees, for details on how to figure the amount to withhold and report.

Note You cannot change the amount of Illinois Use Tax you enter on Form IL-1040 by filing a Form IL-1040-X.

Note Do not report Illinois Use Tax here if you have already reported or paid this amount using Form ST-44.

What is Illinois Use Tax?

Illinois Use Tax is a form of sales tax that you, as the purchaser, owe on items that you buy for use in Illinois. If the seller does not collect this tax from you, you must pay the tax to the Illinois Department of Revenue (IDOR). The most common purchases on which the seller does not collect Illinois Use Tax are those made through the internet, from a mail order catalog, or when traveling outside Illinois.

When must I pay Illinois Use Tax to IDOR?

You must pay Illinois Use Tax to IDOR if

- the items you bought are taxable in Illinois,
- you used or consumed these items in Illinois, **and**
- when you purchased the items you **either**
 - did not pay any sales tax to the seller, **or**
 - paid sales tax at less than Illinois’ Use Tax rates of 6.25 percent for general merchandise and 1 percent for food and drugs.

For example, if you purchased

- a computer over the internet for use in Illinois and paid no sales tax, you owe 6.25 percent Illinois Use Tax.
- jewelry while vacationing in Georgia upon which you paid 4 percent sales tax and which you brought back to Illinois, you will owe Illinois Use Tax on the 2.25 percent difference in tax rates.
- cheese by mail order from a company in Wisconsin and paid no sales tax, you owe 1 percent Illinois Use Tax.

How do I determine the Illinois Use Tax I owe?

To determine the Illinois Use Tax you owe, check your records to see if you were charged tax on internet, mail order, or other out-of-state purchases and use the UT Worksheet to calculate your tax.

If your records are incomplete and you had

- major purchases, add the actual cost of your major purchases to the estimated cost of any other purchases you made during the year. Enter the total on Lines 1a or 2a of the UT Worksheet to calculate the use tax you owe.
- no major purchases, use the UT Table to help you estimate the use tax you owe.

Enter the Illinois Use Tax from the UT Worksheet or UT Table on Form IL-1040, Line 23.

Note If we find that you owe additional tax, we may assess the additional tax plus applicable penalties and interest. We conduct routine audits based on information received from third parties, including the U.S. Customs Service and other states.

Line 23

Use Tax (UT) Worksheet

Complete this worksheet to report and pay your use tax on Form IL-1040. If your annual use tax liability is over \$600 (\$1,200 if married filing jointly), you must file and pay your use tax with Form ST-44.

 - 6.25% or more on Line 1a and

Compassionate Use of Medical Cannabis Pilot Program Act Surcharge

Definitions

Organization registrant means a corporation, partnership, trust, limited liability company (LLC), or other organization, that holds either a medical cannabis cultivation center registration issued by the Illinois Department of Agriculture or a medical cannabis dispensary registration issued by the Illinois Department of Financial and Professional Regulation.

Transactions subject to the surcharge means sales and exchanges of

- capital assets,
- depreciable business property,
- real property used in the trade or business, and
- Section 197 intangibles

of an organization registrant.

What is the surcharge?

For each taxable year beginning or ending during the Compassionate Use of Medical Cannabis Pilot Program, a surcharge is imposed on all taxpayers on income arising from the transactions subject to the surcharge of an organization registrant under the Compassionate Use of Medical Cannabis Pilot Program Act.

The amount of the surcharge is equal to the amount of federal income tax liability for the taxable year attributable to the transactions subject to the surcharge.

To whom does the surcharge apply?

The surcharge is imposed on any taxpayer who incurs a federal income tax liability on the income realized on a “transaction subject to the surcharge,” including individuals and other taxpayers who are not themselves the “organization registrant” that engaged in the transaction.

A line has been included on Schedule K-1-P, Partner’s or Shareholder’s Share of Income, Deductions, Credits, and Recapture, and Schedule K-1-T, Beneficiary’s Share of Income and Deductions, to identify the amount of federal income attributable to transactions subject to the surcharge that was passed through to you on federal Schedule K-1.

How do I figure the surcharge?

If the surcharge applies to you, complete the Compassionate Use of Medical Cannabis Pilot Program Act Surcharge Worksheet.

Step 11 Underpayment of Estimated Tax Penalty and Donations

Note → Only complete this step for late-payment penalty for underpayment of estimated tax or to make a voluntary charitable donation.

Line 33 Late-payment penalty for underpayment of estimated tax

If you

- have a tax liability greater than \$500 after subtracting your withholding, pass-through withholding payments, and credits, or
- were required to make estimated tax payments and failed to pay the required amount by the payment due dates, you may owe a late-payment penalty for underpayment of estimated tax. See Form IL-2210 for details.

Note → If you are 65 years of age or older and you permanently live in a nursing home, or if at least two-thirds of your federal gross income is from farming, you are not required to make estimated tax payments and are not subject to a late-payment penalty for underpayment of estimated tax.

Note → You do not owe a late-payment penalty for underpayment of estimated tax if you were not required to file a Form IL-1040 last year.

Note → If you owe this penalty, you should consider increasing your withholding or the amount of your estimated tax payments. For more information, see the Form IL-1040-ES Instructions and Form IL-W-4, Employee's Illinois Withholding Allowance Certificate.

Tip Let us figure your penalty and bill you

Figuring your own penalty can be difficult. We encourage you to file your Form IL-1040 and pay the tax you owe without including any penalty. If you owe this penalty, we will figure the amount and bill you.

Note → If you annualized your income, you must complete Form IL-2210. See the instructions for Line 33c.

Line 33a Farmers

Check the box if at least two-thirds of your total federal gross income came from farming. Total federal gross income includes your spouse's income if your filing status is "married filing jointly."

Tip Federal gross income from farming

"Federal gross income from farming" is the amount of income you received from your participation in the production of crops, fruits, fish, livestock (used for draft, breeding, or dairy purposes), or other agricultural products. This includes income from the operation of a stock, dairy, poultry, fruit, or truck farm, plantation, ranch, nursery, range, or orchard – regardless of whether the operation is organized as a sole proprietorship, a partnership, an S corporation, or a trust. "Federal gross income from farming" also includes a share of crops produced in exchange for the use of the land. See IRS Publication 225, Farmer's Tax Guide.

"Federal gross income from farming" does not include payments from the sale of farm land and farm equipment, nor does it include income received by a custom grain harvester who performs grain harvesting and hauling services on farms he or she does not own, rent, or lease. It also does not include the wages of a farm employee or cash rent.

Line 39

Amount of overpayment to be credited forward

Subtract Line 37 from Line 36. This is the amount of overpayment you elect to be applied against your estimated tax obligation.

Note → We will reduce any credit to your estimated tax by the amount of any outstanding tax, penalties, and interest you owe. If your credit is reduced, you may owe a late-payment penalty for underpayment of estimated tax. For more information, see Form IL-1040-ES.

Lines 39-40

To which tax period will my credit apply?

We will apply your credit to the tax period for which estimated payments currently are due based on the date you file this 2017 return.

Example 1: You file your 2017 calendar year return on October 6, 2018, which is before the last estimated tax due date for 2018 (January 15, 2019, for calendar year filers). You request your \$500 overpayment be applied against your estimated tax. We will apply \$500 to your 2018 estimated tax.

Example 2: You file your 2017 calendar year return on February 3, 2019, which is after the last estimated tax due date for 2018 (January 15, 2019, for calendar year filers). You request your \$500 overpayment be applied against your estimated tax. We will apply \$500 to your 2019 estimated tax.

With what date will my credit apply against my estimated tax?

If your 2017 return was filed

- on or before the extended due date of your return (October 15, 2018, for calendar year filers), your credit is considered to be paid on the original due date of your 2017 return (April 17, 2018, for calendar year filers).

Example 1: You file your 2017 calendar year return on or before the extended due date of your return requesting \$500 be applied against estimated tax. All of your payments are made before the original due date of your return. Your credit of \$500 will be considered to be paid on April 17, 2018.

However, if all or a portion of your overpayment results from payments made after the original due date of your 2017 return, that portion of your credit is considered to be paid on the date you made the payment.

Example 2: You file your 2017 calendar year return on or before the extended due date of your return requesting \$500 be applied against estimated tax. Your overpayment includes payments of \$400 you made before the original due date of your return, and a \$100 payment you made on June 1, 2018. Your credit of \$400 will be considered to be paid on April 17, 2018. The remaining \$100 credit will be considered to be paid on June 1, 2018.

- after the extended due date of your return, your credit is considered to be paid on the date you filed the return on which you made the election.

Example 3: You file your 2017 calendar year return on December 1, 2018, requesting \$500 be applied against estimated tax. Your credit of \$500 will be considered to be paid on December 1, 2018, because you filed your return after the extended due date of your 2017 calendar year return.

May I apply my credit to a different tax period?

Yes. If you wish to apply your credit to a tax period other than the one described above, you must submit a separate request in writing to:

ILLINOIS DEPARTMENT OF REVENUE
PO BOX 19023
SPRINGFIELD IL 62794-9023

Note You must submit your request to the address above at the time you file your return.

Your request must include

- your name,
- your SSN,
- the tax period of the return creating the overpayment, and
- the tax period you wish to have the credit apply.

If your request does not contain this information, your election will be considered invalid and we will not apply your credit as you requested.

If you submit a valid request, we will apply your credit as you requested and notify you. Once made, your election to change the tax period to which your credit will apply is irrevocable.

Note You may only apply your credit to tax periods occurring after the period of the return creating the overpayment. If you request to apply more credit than our records show you have available, we will apply the maximum amount available and notify you of the difference.
