## 2015 Schedule M1R Instructions

### Am I eligible?

To qualify for this subtraction, you must meet the income requirements and you (or your spouse if filing a joint return) must:

- Have been age 65 or older by the end of 2015; or
- Meet the disability requirements.

If you are married and filing separate federal income tax returns, you are not eligible unless you and your spouse lived apart for all of 2015.

### What is the disability requirement?

To meet the disability requirement, you (or your spouse if filing a joint return) must:

- Have been permanently and totally disabled by the end of 2015;
- Have received federally taxable disability income in 2015.

You may be eligible if at any time a physician signed the statement in the instructions for Schedule R of Form 1040A or 1040 certifying that you are permanently and totally disabled. If you are a veteran, you may qualify if you received a signed certification from the Department of Veterans Affairs stating that you are permanently and totally disabled.

If you have never filed federal Schedule R but believe you are permanently and totally disabled, ask your physician to determine whether you meet the disability requirements. If so, have your physician sign the statement, and keep it with your tax records. It is not necessary for you to file federal Schedule R with the IRS to be eligible for the Minnesota subtraction.

### What are the income requirements?

If you (or your spouse if filing a joint return) meet the age or disability requirement, use the table below to see if you are eligible for the subtraction.
